

'Providing Tribological Solutions'

• ANNOUNCEMENT •
MOV LUBRICANTS

WE ARE PLEASED TO BE ABLE TO PROVIDE MOV GREASE LUBRICANTS TO HELP SOLVE PROBLEMS ASSOCIATED WITH PROPER LUBRICATION OF VALVES. THIS IS FOR BOTH MANUAL AND MOTORIZED OPERATORS. THE SOLUTIONS ARE GREASES WHICH USE PROVEN CALCIUM COMPLEX THICKENER TECHNOLOGY COMBINED WITH SELECTED BASE OILS AND ADDITIVES.

THESE MOV GREASES ARE STATE OF THE ART WITH EXCELLENT RESISTANCE TO AGE HARDENING, TO OIL SEPARATION AND TO WATER WASHOUT. THEY ALSO PROVIDE ABOVE AVERAGE CORROSION PROTECTION, AND GOOD EXTREME PRESSURE AND ANTI-WEAR PROPERTIES. IN MOST CASES THEY CAN BE USED NOW TO DIRECTLY REPLACE EXISTING PRODUCTS.

THESE LUBRICANTS ARE ESPECIALLY SUITED FOR GEARED VALVE STEMS BECAUSE THEY ARE EXPECTED TO PROVIDE CONSISTENT TORQUE REQUIREMENTS OVER MORE EXTENDED PERIODS OF TIME. THEY CAN ALSO EASILY BE REMOVED WITH STANDARD MINERAL OIL SOLVENTS WHEN THOROUGH CLEANING IS REQUIRED.

LASTLY, THEY HAVE NO W.H.M.I.S. CONTROLLED HAZARDOUS INGREDIENTS, THEY CONTAIN NO ADDED HALOGENS SUCH AS CHLORINE OR FLUORINE AND MOV GREASES HAVE NO ADDED LEAD OR ZINC HEAVY METALS.

No warranties, express or implied, including warranties of merchantability or fitness for a particular use, are made with respect to the products described herein. Nothing contained herein shall constitute a permission or recommendation to practice any invention covered by a patent without a license from the owner of the patent.
